MODEL ALL

Risk of injury

When working on hoods, doors, trunk lids and sliding roofs and on their mechanisms that connect them to the body, serious injuries can occur as a result of cutting, pinching or crushing of body parts like fingers and hands.

Safety instructions/precautions

- Be careful when working in hazard areas.

- Secure the operating area of the mechanism against interference when parts are in motion.
- Use special tools or other aids to ensure safe distances.
- Wear protective gloves
